

Lightweight mats

The mat is made of Belgian synthetic leather (phthalate-free).

Antislip is always at the bottom. It prevents sliding of the mat on the smooth surface. Antislip is included in the price of the mat. At the customer's request we can add the handles for easier transfer. The core is made up from the high-quality cross-linked polyethylene. Therefore we would recommend the mats at schools and in the places with higher loads.
